

How Tall Will My Plant Grow?

Choose one day each week when you will measure your plant (for example, measure it each Saturday morning).

Record the weather & water conditions each week too.

Estimate how tall you think your plant will be by the end of summer here:

I think my plant will be _____ inches tall or long by the end of summer.

	How tall or long is your plant this week?	Was it sunny or rainy this week?	Did you water your plant each day?
